

Correct Sitting Posture Guide

第一 双脚与地面呈90度；脚跟必须着地

Feet is flat parallel on the floor at 90°

第二 坐下时，膝盖呈90度；

Thigh is parallel at 90°

第三 靠背须完全抵住腰部并且有10度-15度的活动，可供休息

Ensure the back seat portion is rested around the lumbar area.

第四 桌面高度调整至手臂自然下垂呈60-90度 (约位于胸下与肚脐之间)

Desk height should be at the level where the arm is parallel to the desk at 60-90°.

第五 眼睛与桌面距离，保持30cm以上

Maintain about 30cm distance between the desk and the eye.

Guide to Adjusting the Chair Height

- Ask the child to stand with his back facing the front of the desk.
- With one hand supporting underneath the seat pan, loosen the adjustment knob.
- Gently lift the seat pan and adjust the height according to the child's knee line.
- While sitting, adjust the back rest until it rest comfortably around the lumber area.

Maintenance Care

1. Clean the wheels regularly to remove any trap materials and dust.
2. If the chair is wobbly or unstable, use the Allen key provided to tighten the screw as shown in the picture below:

Note: Turn over the chair to tighten the screw.
